

Balcrank

The Products you want from a Company you Trust

If pumping oil is critical to your operation,
the **Tiger® HP 6:1** is the pump for you!

Balcrank has been manufacturing lube equipment for over 100 years. The Tiger® HP is the latest design and includes, as standard, all of the best features available on lube pumps today. This pump offers made in America quality at a reasonable price.

- Pressure relief on carbon steel models - built in safety feature reduces premature wear of hoses and seals
- Mechanical driven air valve is more reliable
- Designed for lower air consumption - extending compressor life
- Built in pump exhaust - results in quiet operation and eliminates icing
- Stainless steel pump rod - reduces corrosion and extends seal life
- Double acting pump lower - delivers consistent fluid flow with greater dispensing accuracy

Fluid Dispensing Systems

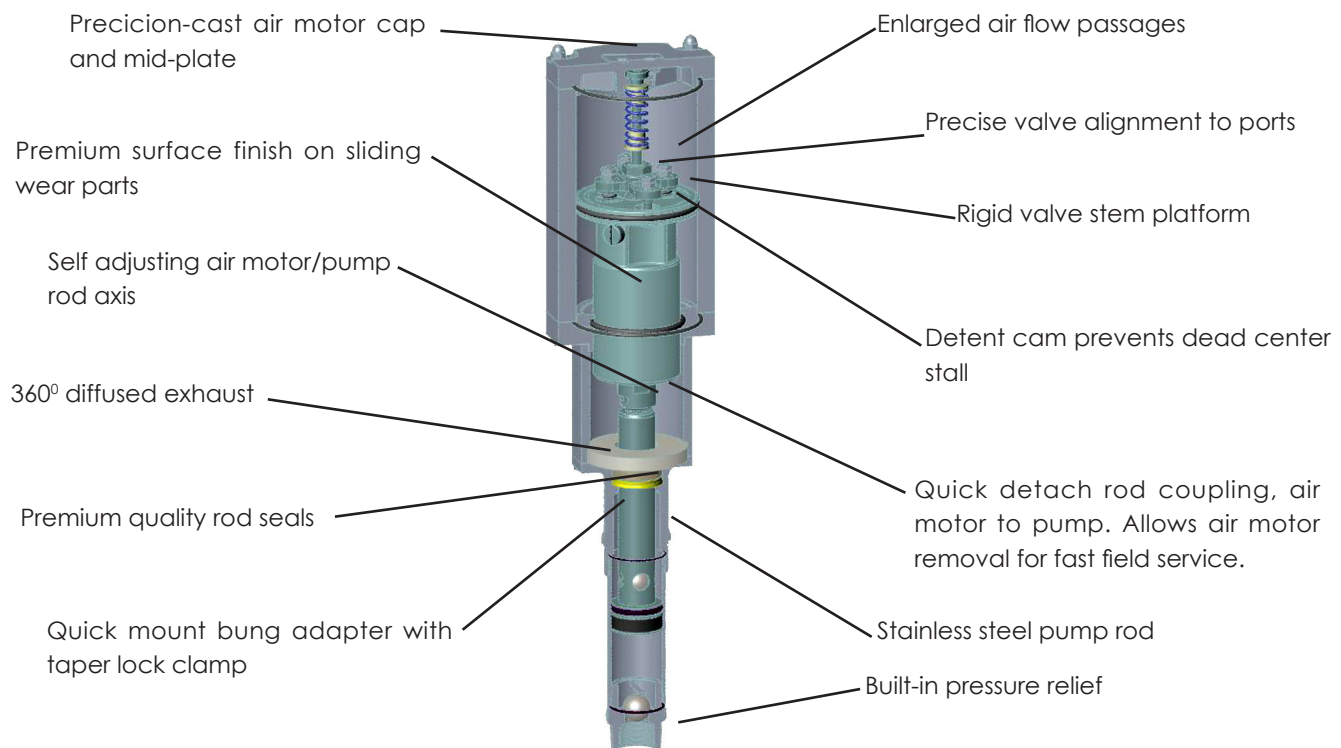

for the Industrial, Commercial & Automotive Industry

Tiger® HP 6:1 Oil Pump

Model 1130-019

The Tiger® HP's modular design, tight tolerances, and exclusive materials combine to produce the best Balcrank pump yet. The Tiger® design has been tested to 5 million cycles before needing any type of maintenance. A built-in pressure relief system is a standard safety feature on carbon steel models. The Tiger® HP has a stainless steel pump rod that resists corrosion that shortens the life other pumps. The extra long life, safety and performance features of the Tiger® HP make it the best choice for any operation where pumping motor oil is critical to success!

Product Features:

Tiger® HP 5:1 Pumps & Outfits

1130-019	Carbon Steel Stub	1131-054	Wall Mount Outfit (Includes pump, bung adapter, mounting bracket, air hose, fluid hose, & suction hose)
