

Balcrank

The Products you want from a Company you Trust

When long reach or high volume is required; Premium EVX *delivers.*

With up to 100 feet of trouble free service,
Premium EVX series reels are the professionals choice.

Balcrank Premium EVX series hose reels have a heavy duty design, dependable performance, and a full range of model choices. Balcrank has been manufacturing high quality lubrication equipment that professional mechanics have been using for over 100 years.

- **Versatile installation** - Wall, tank or mobile lube mounting.
- **Improved steel construction; base, uprights, outlet arm** - provides substantial rigidity and strength
- **Double supported hose outlet arm** - Provides extra support for larger hose diameters and mobile equipment applications
- **NEW, ball-bearing performance** - designed to reduce torque load of power spring and provides smooth
- **hose retraction and long term reliability**
- **High-volume design** - Reduces fill rate time and improves overall efficiency.
- **Model choices** - air/water, lube, grease and diesel.
- **Models ordered with outlet hose include hose stop and 3' inlet hose.**

Fluid Dispensing Systems

for the Industrial, Commercial & Automotive Industry

Premium EVX Series Hose Reels

Balcrank has improved its already high quality Premium EV series reel. Introducing the **new** improved Premium EVX series reels. The added hose capacity gives you longer reach and high volume delivery.

Rectangular shaped roller outlet – prevents hose pinch and stacking.

Large hose capacity – handles a maximum of 100 ft. of hose, depending on fluid application and hose diameter.

Powder coated – for a lifetime finish.

Dual outlet arm – for rigidity and strength.

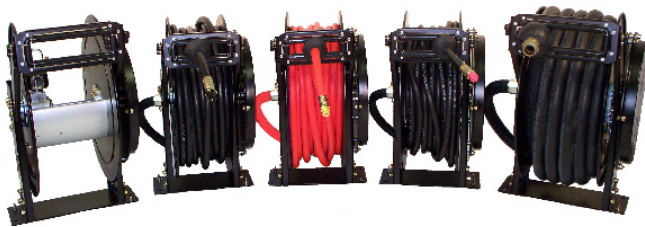

Spring canister – protects power spring from corrosion caused by the elements.

Heavy gauge steel base – Ideal for mobile equipment application.

EVX Series Reels

The new EVX series is an entire family of reels designed to meet all of your fluid dispensing needs!
