How it works

When everything is configured the workflow is identical to using regular keypads, such as selecting the reel, entering the PIN and workorder number and finally the volume to be dispensed.

Built-in bar code scanner

The web app keypad features a built-in software based scanner for inputting work order numbers via QR codes or conventional bar codes.

Drivers for external ERP/DMS systems

Works with all OCP 1.xx based drivers for real-time validating of work order numbers in an ERP/DMS system.

Subscription based

The web app keypad is offered as a service with a montly fee (invoiced annually), this allows your business to easily scale up or down depending on your current needs, providing better overview of the costs. Free support is included for customers with existing Synergy support agreements.
