## Storage Solutions

Balcrank supplies fully assembled tank packages ranging from 165 to 400-gallon sizes. These packages are available for low, medium, and high-volume applications which determine the pump size used in the package. We also offer fluid evacuation systems for handling used fluid products while maintaining safety by utilizing a high-level pump shut-off to prevent overfilling of the tank. We offer single and double wall packages with a selection of pumps, hose reels, and control handles for each application.

## Tank Packages

- Tanks have 2" lockable fill cap and gauge
- Select packages come fully assembled with everything you need for immediate use
- Available in additional sizes. Contact Balcrank for more information

**Ships fully assembled**

**Package includes:**

- UL 142 Tanks (Single and Double Wall)
- DR Handle w/Flex Ext & Auto Tip
- Choice of:
  - LYNX® or Panther® 3:1 Pump
  - 50' x 1/2" ID Classic or Evolution Hose Reel

## Workbench Tank Packages

Workbench style tanks are the best choice when work space is at a premium. The flat top and 30-33" height make workbench style tanks the perfect choice for crowded shops that need additional workspace.

## Vertical Obround Tank Packages

Choose vertical Obround tanks when floor space is limited. Vertical Obround tanks have the smallest footprint per gallon of oil. Assembly required for 330 gallon vertical packages: equipment ships separately.

## Horizontal Obround Tank Packages

Horizontal Obround tanks have a small overall footprint with a narrow width dimension of 27". The fill cap and hose reel are located a convenient 44" from the floor.

## Tankless Packages & Lightweight Double Wall Oil Dispense Tank Packages

Suitable for dispensing of all petroleum based and synthetic oils and similar products up to SAE 90. Packages may be mounted to a variety of tanks including Balcrank's UL 142 single and double wall tanks. Available in workbench, vertical obround, and horizontal obround styles.

These double wall tanks feature:

- Inner tank made of blow-molded, high-density, seamless polyethylene that is non-corrosive and leak-proof
- Outer tank is made of weld-free galvanized steel & roll seam
- Extremely light, up to 50% lighter than conventional steel tanks
- Can be used for DEF, diesel and bio fuels, motor oil, and ATF
- Wide handles for easy transportation
- UL 2258 certified\*
- 4 x 2" bung openings
